

Marina Berlusconi: “Mediobanca, an interesting opportunity”

Marina Berlusconi, chairman of Fininvest Spa, today declared:

“We have decided to buy a 1% stake in Mediobanca because we believe it represents an interesting investment opportunity, especially in light of certain determining elements such as the management, the results and a trend towards international development.”

“Our core business,” the Fininvest chairman continued, “is and remains media. The increase in our stake in Mediobanca is consistent with a strategy, that has been open and declared for some time, to diversify in such a way as to allow Fininvest to optimise the management of its resources.”

Milano, 14 December 2007
