

Declaration of Marina Berlusconi

In reference to the claims of the Ezio Mauro, the director of La Repubblica,
Marina Berlusconi declared:

"A lack of argumentative substance leads to a response that is nervous and arrogant in tone. An irrelevant response, as everyone except Ezio Mauro understands.

It demonstrates the embarrassment of someone, who, having silently used a law that is condemned in public, can not find a single concrete element to justify this total lack of coherence. How can anyone deal with the impossible task of defending a full-blown and perennial conflict of interest between public demagoguery and private interest? Ezio Mauro finds nothing better to do than give twisted lessons about legality in order to arrive at a complete manipulation of facts.

To be sure, this is an excellent example of full coherence with the editorial position and behavior of his newspaper."
